Calculation of Merit point:

To calculate the percentage of marks at 10th level consider aggregate marks in Madhyamik without additional marks.

To calculate the percentage of marks at 12th level, add marks of best 5 elective subjects studied.

In case of CBSE and ICSE (10 standard), if marks of Board exam are available, add upto the final aggregate. If marks of Board Exam are not available, the marks given by the Institute and approved by the concerned Board will be taken into account for calculation of % of marks.

In case, marks are not awarded but grade points (GP) are awarded, GP is to be converted into marks on the 100-point scale. If letter grades with range of marks for the letter grades are given, then the mid value of the range of a particular letter grade will be considered for determination of the percentage of marks.

In case of CBSE and ISC (12 standard), consider 2 or 1 language as available + 3 best elective subjects and find the aggregate marks. **If only one language is available, it is doubled to calculate the aggregate marks. In that case, put the marks obtained in First Language in the specified box and again put the same marks in the column specified for Second Language.**

Merit List:

Merit list will be generated on the basis of category, honours subjects, and **number of applicants**. All reserved candidates shall be considered in unreserved list as well as reserved list. If such a candidate is found eligible for admission in both lists and he/she gets admission, he/she will be considered to have filled in the unreserved list.

Instantly this choice will be locked in his/her favour and he/she will get an SMS for provisional admission. The bank will inform the system database about the payment.
